Representative Bill Harmon  
Secretary, House Transportation Committee  
Suite 24 Legislative Plaza  
Nashville, TN 37243

Dear Representative Harmon:

As an officer of the House Transportation Committee, you are advised of a change in the organization of the Tennessee Department of Transportation. This is in accordance with Section 4-3-2303 (6) of the State Code which requires that organizational changes in the department be presented for review to officers of your committee.

The following change is being made: The Division of Transit, Rail and Waterways is being renamed the Division of Multimodal Transportation Resources and is being moved from under the Bureau of Environment and Planning to becoming a direct report to the Commissioner. As part of the change, the Rail Inspection Section, formerly a part of the Transit, Rail and Waterways section, is being moved to the Maintenance Division of the Engineering Bureau. These changes have been made after discussion with and input from our transit and rail partners.

A search is currently underway for a Director of the Division of Multimodal Transportation Resources.

A revised organizational chart is attached which shows the department's revised organizational structure.

Please let me know if you have any questions or comments on this matter.

Sincerely,

A handwritten signature in black ink that reads "Gerald F. Nicely".
